c2: were given a design brief for leading law firm Coffin Mew's relocation to 1000 Lakeside in Portsmouth, to provide a bright, youthful environment with a strong emphasis on collaborative working and visitor engagement and the provision of quality in-house event space. Our design incorporated open plan work space where partners sit with their work teams, flexible meeting spaces and a client coffee lounge. The colour scheme is contemporary with modern timber veneer panelling in the reception areas and the use of stunning imagery and colour in photographic feature walls provides separation between strategic zones throughout the unusual building layout. After completing Portsmouth, c2: were commissioned to redesign the firm's Southampton office reflecting the same approach.
